TECHNOLOGY STACK

I have a good understanding of **HTML** and **CSS**, in particular the **Bootstrap** framework. In the process of learning I also developed the basics **Java Script** by **ES6** standards, to interact with **DOM Elements & Events, AJAX and API's**. I've also learnt the basics of **OOP**, especially in Java Script.

For practice, during my studies I built **Node.js** server by connecting npm modules and the **MongoDB** database. The result of this project was a full-stack **Express.js** app with CRUD functionality, API maps and image gallery and basic authentication built from scratch. The project was deployed on Heroku and later moved to Vercel.

I built my further projects with **React**, styled them with **Tailwind**, and I handled the data with **MySQL**. Version control was implemented using **Git**.

WORK EXPERIENCE

Brand KV, Kyiv, Ukraine (March 2016 – January 2023)

Made my way from the assistant director to the company's business development manager. Newly created company is currently one of the 5 largest trading companies in Kyiv in the packaging materials segment. The company employs 12 people and has an impeccable reputation on the market as an employer, supplier and client.

Mykhailivska Ptaha, Brovary, Ukraine (May 2015 – February 2016)

Performed an audit of the activities of the newly established enterprise, monitored the use of funds. Helped in development and entering the market.

KPMG Audit, Kyiv, Ukraine (October 2014 – April 2015)

Worked as Auditor Assistant in different sectors such as financial, retail and industrial. Get certificates: F1 Accountant in Business (ACCA) and F3 Financial Accounting (ACCA).

Asset Management Company «ROS Capital», Kyiv, Ukraine (June 2013 – August 2013)

Responsibilities included budget construction for building of apartment houses in Kiev. Additionally responsible for collection of approval documentation.

Asset Management Company «Invest-Consulting», Kyiv, Ukraine (June 2012 – September 2012)

Responsible for issuing bonds. Followed the issuing process from issuer decision to deposition bonds.
